

2024 Rust Remover/Recurrent Pilot Training

Presented by COPA Flight 108 (Northwest Territories Flying Association)

Date: Saturday, May 25, 2024

Time: 8:45 am to 3:00 pm

Location: Yellowknife Historical Museum, Yellowknife

Registration: Online registration required

Refreshments: Coffee/muffins and lunch provided

Cost: NWTFA Members: Free

Non-Members: \$40

Recurrent Training:

The Rust Remover serves as a refresher on topics relevant to training for private and recreational pilots. The program is designed to be of value to all pilots whether flying on wheels, floats or skis. The agenda will be sanctioned by Transport Canada as satisfying the 2-year recurrent training requirement for private pilots.

Presentations:

The 2024 Rust Remover will include presentations on the following topics:

- General Aviation Safety: Runway incursions, icing, float operations
- Airworthiness: Owner maintenance, pilot responsibilities, ADS-B
- Operations in YZF Control Zone: Annual update from NAV CANADA
- Buying and Selling Private Aircraft: Best practices, tips and traps

Speakers will include Jack Kearley and Jacinta Hagel from Transport Canada, staff from NAV CANADA, and Cynthia Levy LLB.

Registration:

Advance online registration is required. Visit the NWTFA website at www.flyingnwt.com for membership and registration links.
