ENROUTE TO YZF

CEK7 — FOOTNER LAKE (HIGH LEVEL, AB)

Footner Lake is a registered water aerodrome located immediately west of the CYOJ airport in High Level, AB. Temporary beaching for floatplanes is available near a dock on the southeast side of the lake. A sand/gravel ramp adjacent to the dock is easily accessible without obstructions, providing for convenient refueling or stopover. The dock itself may be unsuitable for floatplane use due to water levels and its height.

Fuel (100LL and Jet-A) is available at Footner Lake by call-out from the CYOJ airport. The fuel truck will be dispatched on request to CYOJ radio on arrival or by contacting the operator by cell phone upon arrival. Fuel operators are Flight Fuels LP – Footner Aviation (780-926-3700) and Swan Aeromotive (780-926-3607). Fuel trucks cannot drive onto the dock but will dispense fuel using grounded fuel hose.

NWTFA members who refueled at Footner Lake in August 2017 highly recommend this waypoint. The ramp provided convenient parking and excellent refueling service from Footner Aviation permitted quick turnaround time.
